Gender sensitization, also known as gender awareness or gender sensitivity training, refers to the process of raising awareness and understanding about the concepts of gender, gender roles, and gender-based discrimination. This programme aims to promote a more inclusive and equitable society by challenging and changing harmful attitudes, beliefs, and behaviors related to gender among the students community.

Dr.L.Ranjit, Assistant Professor and Head Welcomed the gathering and Special Address was given by our chief guest. She started with some activities and interaction with the students.

Contents discusses in this programme:

Gender sensitization programs can be implemented in various settings, including schools, workplace, communities and government organizations. This programme typically create awareness among the students community.

Key aspects of gender sensitization include:

1. Understanding Gender: Providing education and information about the different aspects of gender, including its social, cultural, and psychological dimensions. This involves recognizing that gender is not binary (male/female) but exists on a spectrum.

2. Challenging Stereotypes: Addressing and debunking stereotypes and preconceived notions about what is considered "appropriate" behavior, roles, and characteristics for different genders. This involves acknowledging that traits and interests are not inherently linked to one's gender.

3. Promoting Equality: Highlighting the importance of equal rights and opportunities for people of all genders. This includes addressing issues like gender pay gaps, representation in leadership positions, and access to education and healthcare.

4. Preventing Gender-Based Violence: Raising awareness about different forms of gender-based violence, including domestic violence, sexual harassment, and discrimination, and promoting ways to prevent and respond to such incidents.

5. Creating Safe Spaces: Fostering environments where individuals feel comfortable discussing gender-related topics, asking questions, and expressing themselves without fear of judgment or discrimination.

6. Intersectionality: Recognizing that gender intersects with other aspects of identity, such as race, ethnicity, sexuality, and socio-economic status, leading to unique experiences and challenges for different individuals.

7. Media and Language: Analyzing and critiquing media representation and language use that reinforce gender stereotypes or contribute to unequal power dynamics.

8. Institutional Change: Encouraging changes in policies, practices, and structures within institutions (such as workplaces, schools, and government agencies) to promote gender equality and inclusivity.

Our ultimate goal of gender sensitization is to create a society where all individuals, regardless of their gender identity, can live free from discrimination, enjoy equal opportunities, and contribute to a more just and equitable world. This programme creates great attention among the students about the gender sensitization and gender equality.

DRIVE AGAINST DRUG (DAD) - RALLY

Department of Social Work, Anti-Drug Club and Pollachi West Police Station jointly organized an Oath Taking Meet – A live Telecast from Chief Secretariat of Tamilnadu – Pledge regarding to abolish Drugs in our Tamilnadu state on 11.08.2023 at Vivekanandar Arangam, N.G.M. College, Pollachi.

Tamil Nadu Chief Minister M K Stalin launched a massive drug disposal programme in Chennai city where the state police destroyed 16,000 kg of seized contraband.

According to CM Stalin, a record number of 1 crore school and college students took the anti-drug pledge, which he administered at the Kalaivanar Arangam in the city. While some of the students were present at the hall, the rest across the state joined the event virtually and took the pledge to eradicate narcotic substances and work towards the government's goal of making Tamil Nadu a drug-free state.

After administering the pledge, CM Stalin inaugurated a short film on the ill effects of addiction. The short film will be screened at all theatres in the state. Regarding this Department of social Work NGM College organized the programme. Students from various Department and Police Officers from Pollachi West Police Station were actively participated in this programme.

INTERNATIONAL DAY AGAINST DRUG RALLY

We the department of social work and Pollachi West Police station jointly organized a rally for **"International day against drug"** on **26.06.2023** drug addiction is very big issue in our country. Drug is reason for many problems Example: Cancer, family issues etc. Most of the youngsters are addict towards drug nowadays. The government also taking the necessary step to achieve the goal of a world free drug abuse. 100 above students were participated in the programme. The rally started from NGM College to Pollachi Bus Stand.

Our Rally explains the following information to the Public as well as the Students

Causes of Drug Abuse:

- Sleep problems.
- Chronic pain.
- Financial difficulties
- Divorce of the loss of a loved one
- Long-term tobacco habit

Effect of Drug Abuse:

- Depression
- Personality disorder
- Weight loss
- Suicide
- Poverty
- Health issues

Stopping drug abuse is a complex and challenging process that requires dedication, support, and a multi-faceted approach. If you or someone you know is struggling with drug abuse considers the following steps:

Acknowledge the Problem: The first step is recognizing that there is a problem and being willing to seek help.

Seek Professional Help: Reach out to a medical professional, counselor, therapist, or addiction specialist who can provide guidance and support tailored to your situation. They can help create a personalized treatment plan.

Detoxification: If the drug use is severe, a supervised detoxification process might be necessary. Detox helps the body rid itself of drugs, but it should be done under medical supervision to manage withdrawal symptoms.

Therapy and Counseling: Behavioral therapies, such as cognitive-behavioral therapy (CBT), motivational interviewing, and contingency management, can help individuals address the underlying causes of drug abuse, learn coping strategies, and develop healthier behaviors.

Support Groups: Joining support groups, like Narcotics Anonymous (NA) or SMART Recovery, can provide a sense of community and understanding among people facing similar challenges.

Medication: In some cases, medications can be prescribed to help reduce cravings, manage withdrawal symptoms, and prevent relapse. Consult a healthcare provider to determine if medication is appropriate.

Lifestyle Changes: Adopt a healthy lifestyle by exercising regularly, eating a balanced diet, getting enough sleep, and engaging in stress-reducing activities such as meditation or yoga.

Avoid Triggers: Identify and avoid situations, places, or people that may trigger cravings or relapse.

Develop Healthy Coping Mechanisms: Learn healthier ways to manage stress, anxiety, and other emotions that may have contributed to drug abuse in the first place.

Most of the public people's were observed our rally and pamphlets and encourage our initiatives towards drug abuse. This rally brings some impact against drug among the common people.

Gender inequality

Gender inequality is the social phenomenon in which people are not treated equally on the basis of gender. This inequality can be caused by gender discrimination or sexism. The treatment may arise from distinctions regarding biology, psychology, or cultural norms prevalent in the society. Some of these distinctions are empirically grounded, while others appear to be social constructs. While current policies around the world cause inequality among individuals, it is women who are most affected. Gender inequality weakens women in many areas such as health, education, and business life.[1] Studies show the different experiences of genders across many domains including education, life expectancy, personality, interests, family life, careers, and political affiliation. Gender inequality is experienced differently across different cultures and also affects non-binary people. Gender equality makes our communities safer and healthier

Unequal societies are less cohesive. They have higher rates of anti-social behavior and violence. Countries with greater gender equality are more connected. Their people are healthier and have better wellbeing. Gender inequality refers to the unequal treatment and opportunities based on gender. It encompasses various aspects such as economic disparities, social norms, and access to education and healthcare. Women often face discrimination in the workplace, unequal pay for the same work, and limited representation in leadership roles. Cultural and societal expectations contribute to reinforcing these inequalities. Addressing gender inequality involves promoting equal opportunities, challenging stereotypes, and advocating for policies that support gender balance.

Gender sensitization, also known as gender awareness or gender sensitivity training, refers to the process of raising awareness and understanding about the concepts of gender, gender roles, and gender-based discrimination. This programme aims to promote a more inclusive and equitable society by challenging and changing harmful attitudes, beliefs, and behaviors related to gender among the students community.

Dr.L.Ranjit, Assistant Professor and Head Welcomed the gathering and Special Address was given by our chief guest. She started with some activities and interaction with the students.

Contents discusses in this programme:

Gender sensitization programs can be implemented in various settings, including schools, workplace, communities and government organizations. This programme typically create awareness among the students community.

Key aspects of gender sensitization include:

1. Understanding Gender: Providing education and information about the different aspects of gender, including its social, cultural, and psychological dimensions. This involves recognizing that gender is not binary (male/female) but exists on a spectrum.

2. Challenging Stereotypes: Addressing and debunking stereotypes and preconceived notions about what is considered "appropriate" behavior, roles, and characteristics for different genders. This involves acknowledging that traits and interests are not inherently linked to one's gender.

3. Promoting Equality: Highlighting the importance of equal rights and opportunities for people of all genders. This includes addressing issues like gender pay gaps, representation in leadership positions, and access to education and healthcare.

4. Preventing Gender-Based Violence: Raising awareness about different forms of gender-based violence, including domestic violence, sexual harassment, and discrimination, and promoting ways to prevent and respond to such incidents.

5. Creating Safe Spaces: Fostering environments where individuals feel comfortable discussing gender-related topics, asking questions, and expressing themselves without fear of judgment or discrimination.

6. Intersectionality: Recognizing that gender intersects with other aspects of identity, such as race, ethnicity, sexuality, and socio-economic status, leading to unique experiences and challenges for different individuals.

7. Media and Language: Analyzing and critiquing media representation and language use that reinforce gender stereotypes or contribute to unequal power dynamics.

8. Institutional Change: Encouraging changes in policies, practices, and structures within institutions (such as workplaces, schools, and government agencies) to promote gender equality and inclusivity.

Our ultimate goal of gender sensitization is to create a society where all individuals, regardless of their gender identity, can live free from discrimination, enjoy equal opportunities, and contribute to a more just and equitable world. This programme creates great attention among the students about the gender sensitization and gender equality.

Instructions Manual

Experiential learning

- Projects
- Drama fest and role play in language classes
- Field projects and field trip and internship
- Audio visual learning in language lab
- Poster presentation, creating and including video clips
- Model and exhibitions to promote creativity and experiential learning
- Book review
- Movie making
- E-learning
- Hands on training in relevant skill based courses
- Team building activities in classes
- Service learning
- Peer learning
- Earn while learn programme

Participative learning

- Mooc courses
- Presentations and guided seminars
- Group discussions
- Peer learners circles of advanced learners assisting slow learners
- Guided library work
- Webinars
- Video conferencing
- Training by corporate entities
- Mock interviews
- Puzzles, drama, debates, games
- Research oriented workshop and laboratory exercises-PG Courses
- Flipped classes
- Blended learning
- Brain storming
- Role play
- Community outreach programme/Community services
- Encourage students to organize technical symposium and events
- CSI/CMA/NIPM/Rotaract student chapter programme

Problem-Solving Methods

- Software's developed by students of computer science.
- Sensor-based devices are created by the students of physics.
- Case studies
- Real time projects/Real world problems
- Computer Programming and the use of Statistical tools for problem-solving.
- Real time Industry Issues with solutions.
- Survey and interpretation

From

HOD, Department of Chemistry, NGM College, Pollachi

Industrial visit has been arranged for 3rd year B.Sc. Chemistry students to visit CSIR-Central Leather Research Institute, Chennai from 25th September (4.00 PM) to 27th September 2023 (7.00 AM). This research institute visit will benefit the students to gain knowledge in their subjects and also motivate them to take up higher studies. Therefore, I kindly request the Principal, NGM College to permit us to visit CSIR-CLRI, Chennai. The necessary documents pertaining to this trip has been enclosed.

List of documents enclosed:

1. Participants name, their parents contact number and their personal contact number
2. Accompanying faculty members name and their contact number
3. Tentative program list
4. Undertaking form from students
5. Permission letter from parents
6. Permission letter

DEPARTMENT OF CHEMISTRY (UG-AIDED)

REPORT ON INDUSTRIAL VISIT TO CSIR-CLRI, CHENNAI

The Department of Chemistry organized an Industrial Visit for the final year B Sc Chemistry students to Council of Scientific and Industrial Research(CSIR)- Central Leather Research Institute (CSIR-CLRI),Adyar, Chennai on 26thSeptember 2023 (on CSIR Foundation day). The total number of students was 43, accompanied by 2 staffs – Dr Indumathy Ramasamy and Mr K Pradeep.

The trip began on 25th September 2023 and all the students assembled at Pollachi Railway Junction to board train to Chennai and reached MGR Central Railway Station on 26th September early in the morning. After refreshment, we proceeded to CSIR-CLRI Institute.

The students and faculty members reached the campus at 9.30 AM and had their breakfast. They all first visited the Centralised Instrumentation Facility centre and then the Leather Designing Lab where they had exposure to various analytical instruments like TGA, Flame photometer, UV spectrophotometer, Raman Spectrometer, IR spectrometer, Mass spectrometer etc. After a short tea break, they visited the Chemical lab followed by Advanced materials Laboratory. They had their lunch and then visited the Organic and Biochemistry labs. They also visited the NMR Lab where they learnt about the Instrument and sampling technique in detail. They also visited pilot plant and left the campus at 5:00 PM and reached the MGR Central Railway Station and boarded the train to Pollachi. We reached Pollachi on 27th September at 8:30 AM.

OUTCOMES

The students were able to

- Witness lot of new instruments which are used in modern chemistry lab
- Learn working principles of various analytical instruments which they were studying in their curriculum (Analytical Chemistry)
- Obtain knowledge about research and higher studies
- Learn about the R & D in Leather Technology

The students had given their feedback that the IV was informative, interesting and useful to know about future scopes and prospects in Chemistry and allied areas.

TITLE: FUN WITH CHEMISTRY-AN INTERACTIVE CHEMISTRY QUIZ
DATE: 04/08/2023 VENUE:PROF.M.ALKONDAN HALL
TIME:11:45AM-12:45 PM
ALL ARE CORDIALLY INVITED !!!

2. Detailed Report of the Event:

"Fun with chemistry-An Interactive Chemistry Quiz" was held on 04.08.2023, 11.45 AM at Prof. M. Alkondan Hall. Dr. V. Uma, Associate Professor, Department of Chemistry, Arignar Anna Government Arts College, Cheyyar was invited to be the chief guest for the "Chem Activity". The quiz covered the undergraduate chemistry syllabus and consists of various rounds such as,

Round 1: One word for many words

Round 2: What's Missing?

Round 3: Odd man out

Round 4: Chemistry Riddles(Who am I)

Round 5: Daily life Chemistry

All the students participated enthusiastically and later on shared their feedback. Many students found to be very useful and inspiring.

A REPORT ON INDUSTRIAL VISIT TO

COORG & CHIKMAGALUR

NALLAMUTHU GOUNDER MAHALINGAM COLLEGE
(AUTONOMOUS) POLLACHI-642001

Re-accredited by NAAC, A Government Aided Institution

01.02.2024 & 02.02.2024

PREAMBLE:

Nallamuthu Gounder Mahalingam College, Department Of Zoology has organized the industrial visit to Coorg & Chikmangalur in Karnataka on 1st & 2nd of February 2024 for I, II & III year of B.Sc.Zoology students.

This visit was organized with the prior permission of Dr.R.Muthukumaran , Principal, Nallamuthu Gounder Mahalingam College.

Dr.S.Somasundaram, The Head of The Department of Zoology has taken initiative with Mrs.S.Jayalakshmi and Dr.S.Christober, Assistant Professors of Department of Zoology and Mr.M.Marimuthu, Lab Assistant of Department of Zoology are Accompanied in this Trip. A Total of 46 Students participated in this Trip.

We started our travel from NGM College, Pollachi at 9.00pm on 31.01.2024(Wednesday) and our travelling ended at 9.45am on 01.02.2024(Thursday). On the whole our trip ended at 12.00pm on 03.02.2024(Saturday).

We have constituted a Medical Team, Attendance Team, Discipline Committee, Transport and Food Committee by the Students for Comfort and Safety.

OBJECTIVE OF THE FIELD VISIT:

- To acquire knowledge regarding forest ecosystem.
- To indulge in adventure activities like trekking and immerse ourselves in the rich culture and history of locations in Karnataka, India.
- To explore our knowledge about nature and fauna's around us.

PLACES OF VISIT:

- Coorg,
- Chikmagalur.

Day 1: 01.02.2024(Thursday) at 11.00am visit to Chiklihole Dam:

Chiklihole is a large body of water that offers both relaxation and tranquillity; that is perfect for holiday makers and nature lovers looking to escape the stress of our lives back home. The area surrounding this reservoir makes this place much attractive. Watching the sunset from here is more picturesque and photogenic. The green meadow on one side and thick forest on the other makes place a great travel destination across Kodagu.

01.02.2024(Thursday) at 02.00pm visit to Dubare Elephant Camp:

Dubare Elephant Camp is well known for its elephant training camp where we can observe and participate in various activities related to elephant care and conservation. The activities include elephant bathing, feeding and taking elephant rides. It's a great place to learn about these majestic animals and their role in Indian culture and conservation efforts.

Day 2: 02.02.2024(Friday) at 11.00 am visit to Bamboo forest:

Bamboo forests are dense stands of bamboo plants, characterized by tall, slender stalks of bamboo that create a unique and visually striking our environment. These forests in addition to their ecological significance, they are often popular destinations due to their beauty and tranquillity. Visitors can enjoy activities such as hiking, bird watching and photography while exploring this serene environment.

02.02.2024(Friday) at 11.00am visit to Mullaiyanagiri Peak:

Mullayanagiri is one of the highest peak in the state of Karnataka, with an elevation of 1,930m (6,303 feet) above sea level. It is located in the part of Baba Budangiri range in the Western Ghats. It is the most popular trekking destination,

attracting adventure enthusiasts and nature lover from all over the Country. At the summit there is a small temple dedicated to lord Shiva, which is a significant pilgrimage site for devotees. The peak also offers panoramic view of the Western Ghats and is a great spot for sunrise and sunset photography.

APPRECIATION LETTER

We extend our heartfelt appreciation to the Staff and Students of the Department of Computer Science (Aided),Nallamuthu Gounder Mahalingam Collage ,Pollachi for carrying out Extension Activity on "Cyber Safety Navigating to the Online World" programme in our School on 11.01.2024 (Thursday), We are extremely thankful for creating huge awareness on Social Media and its impact for our Rural Based School Students. The activities such as Drama, Video, Paper Presentation and Quiz enhanced our students learning and knowledge on Social Media and its related issues. We appreciate your students for conveying the usage of Smart Phones with guidance and how to handle it and protect ourselves .The Quiz Activity motivated our students and ignited them to learn further. Once again, we appreciate and place our sincere gratitude to the Students and the Faculty members of the Department of Computer Science (Aided), Nallamuthu Gounder Mahalingam College, Pollachi for this extension activity.

From

HOD, Department of Chemistry, NGM College, Pollachi

Industrial visit has been arranged for 3rd year B.Sc. Chemistry students to visit CSIR-Central Leather Research Institute, Chennai from 25th September (4.00 PM) to 27th September 2023 (7.00 AM). This research institute visit will benefit the students to gain knowledge in their subjects and also motivate them to take up higher studies. Therefore, I kindly request the Principal, NGM College to permit us to visit CSIR-CLRI, Chennai. The necessary documents pertaining to this trip has been enclosed.

List of documents enclosed:

1. Participants name, their parents contact number and their personal contact number
2. Accompanying faculty members name and their contact number
3. Tentative program list
4. Undertaking form from students
5. Permission letter from parents
6. Permission letter

DEPARTMENT OF CHEMISTRY (UG-AIDED)

REPORT ON INDUSTRIAL VISIT TO CSIR-CLRI, CHENNAI

The Department of Chemistry organized an Industrial Visit for the final year B Sc Chemistry students to Council of Scientific and Industrial Research(CSIR)- Central Leather Research Institute (CSIR-CLRI),Adyar, Chennai on 26thSeptember 2023 (on CSIR Foundation day). The total number of students was 43, accompanied by 2 staffs – Dr Indumathy Ramasamy and Mr K Pradeep.

The trip began on 25th September 2023 and all the students assembled at Pollachi Railway Junction to board train to Chennai and reached MGR Central Railway Station on 26th September early in the morning. After refreshment, we proceeded to CSIR-CLRI Institute.

The students and faculty members reached the campus at 9.30 AM and had their breakfast. They all first visited the Centralised Instrumentation Facility centre and then the Leather Designing Lab where they had exposure to various analytical instruments like TGA, Flame photometer, UV spectrophotometer, Raman Spectrometer, IR spectrometer, Mass spectrometer etc. After a short tea break, they visited the Chemical lab followed by Advanced materials Laboratory. They had their lunch and then visited the Organic and Biochemistry labs. They also visited the NMR Lab where they learnt about the Instrument and sampling technique in detail. They also visited pilot plant and left the campus at 5:00 PM and reached the MGR Central Railway Station and boarded the train to Pollachi. We reached Pollachi on 27th September at 8:30 AM.

OUTCOMES

The students were able to

- Witness lot of new instruments which are used in modern chemistry lab
- Learn working principles of various analytical instruments which they were studying in their curriculum (Analytical Chemistry)
- Obtain knowledge about research and higher studies
- Learn about the R & D in Leather Technology

The students had given their feedback that the IV was informative, interesting and useful to know about future scopes and prospects in Chemistry and allied areas.

A REPORT ON INDUSTRIAL VISIT TO

COORG & CHIKMAGALUR

NALLAMUTHU GOUNDER MAHALINGAM COLLEGE
(AUTONOMOUS) POLLACHI-642001

Re-accredited by NAAC, A Government Aided Institution

01.02.2024 & 02.02.2024

PREAMBLE:

Nallamuthu Gounder Mahalingam College, Department Of Zoology has organized the industrial visit to Coorg & Chikmangalur in Karnataka on 1st & 2nd of February 2024 for I, II & III year of B.Sc.Zoology students.

This visit was organized with the prior permission of Dr.R.Muthukumaran , Principal, Nallamuthu Gounder Mahalingam College.

Dr.S.Somasundaram, The Head of The Department of Zoology has taken initiative with Mrs.S.Jayalakshmi and Dr.S.Christober, Assistant Professors of Department of Zoology and Mr.M.Marimuthu, Lab Assistant of Department of Zoology are Accompanied in this Trip. A Total of 46 Students participated in this Trip.

We started our travel from NGM College, Pollachi at 9.00pm on 31.01.2024(Wednesday) and our travelling ended at 9.45am on 01.02.2024(Thursday). On the whole our trip ended at 12.00pm on 03.02.2024(Saturday).

We have constituted a Medical Team, Attendance Team, Discipline Committee, Transport and Food Committee by the Students for Comfort and Safety.

OBJECTIVE OF THE FIELD VISIT:

- To acquire knowledge regarding forest ecosystem.
- To indulge in adventure activities like trekking and immerse ourselves in the rich culture and history of locations in Karnataka, India.
- To explore our knowledge about nature and fauna's around us.

PLACES OF VISIT:

- Coorg,
- Chikmagalur.

Day 1: 01.02.2024(Thursday) at 11.00am visit to Chiklihole Dam:

Chiklihole is a large body of water that offers both relaxation and tranquillity; that is perfect for holiday makers and nature lovers looking to escape the stress of our lives back home. The area surrounding this reservoir makes this place much attractive. Watching the sunset from here is more picturesque and photogenic. The green meadow on one side and thick forest on the other makes place a great travel destination across Kodagu.

01.02.2024(Thursday) at 02.00pm visit to Dubare Elephant Camp:

Dubare Elephant Camp is well known for its elephant training camp where we can observe and participate in various activities related to elephant care and conservation. The activities include elephant bathing, feeding and taking elephant rides. It's a great place to learn about these majestic animals and their role in Indian culture and conservation efforts.

Day 2: 02.02.2024(Friday) at 11.00 am visit to Bamboo forest:

Bamboo forests are dense stands of bamboo plants, characterized by tall, slender stalks of bamboo that create a unique and visually striking our environment. These forests in addition to their ecological significance, they are often popular destinations due to their beauty and tranquillity. Visitors can enjoy activities such as hiking, bird watching and photography while exploring this serene environment.

02.02.2024(Friday) at 11.00am visit to Mullaiyanagiri Peak:

Mullayanagiri is one of the highest peak in the state of Karnataka, with an elevation of 1,930m (6,303 feet) above sea level. It is located in the part of Baba Budangiri range in the Western Ghats. It is the most popular trekking destination,

attracting adventure enthusiasts and nature lover from all over the Country. At the summit there is a small temple dedicated to lord Shiva, which is a significant pilgrimage site for devotees. The peak also offers panoramic view of the Western Ghats and is a great spot for sunrise and sunset photography.

APPRECIATION LETTER

We extend our heartfelt appreciation to the Staff and Students of the Department of Computer Science (Aided),Nallamuthu Gounder Mahalingam Collage ,Pollachi for carrying out Extension Activity on "Cyber Safety Navigating to the Online World" programme in our School on 11.01.2024 (Thursday), We are extremely thankful for creating huge awareness on Social Media and its impact for our Rural Based School Students. The activities such as Drama, Video, Paper Presentation and Quiz enhanced our students learning and knowledge on Social Media and its related issues. We appreciate your students for conveying the usage of Smart Phones with guidance and how to handle it and protect ourselves .The Quiz Activity motivated our students and ignited them to learn further. Once again, we appreciate and place our sincere gratitude to the Students and the Faculty members of the Department of Computer Science (Aided), Nallamuthu Gounder Mahalingam College, Pollachi for this extension activity.

DEPARTMENT OF COMPUTER SCIENCE WITH ARTIFICIAL INTELLIGENCE & MACHINE LEARNING

NGM COLLEGE, POLLACHI

2.3.1 Student-centric methods such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experiences

Student centric methods that encompasses experiential learning, participative learning and

Problem solving methodologies are employed to enhance holistic learning experience.

1) Experiential learning

The department indulges in the following experiential learning practices to enhance creativity and cognitive levels of the students.

Experiential learning activities include

- Putting the student's hands-on practice in the laboratory sessions
- Engaging the students to do Capstone projects on promising domains in their summer vacation
- Add-on Courses on latest technologies with NPTEL, Swayam portals etc.
- Providing Certification Courses in the form of Value Added Courses where student from various department are free to choose a course offered by a department which enhances and facilitates to develop their expertise
- Course materials for the students made available through Google Classroooms

The department also adopts modern pedagogy to enhance teaching-learning process by implementing ICT enabled teaching where class rooms with LCD and Power point presentations are show cased

2) Participative Learning

Participatory learning is set up on the idea that everyone deserves to learn and everyone deserves an education that supports their potential. It encourages learning by doing. In this sort of learning, students participate in various happenings as seminar, group discussion, wall papers, projects, and the skill based add on courses.

Students are encouraged to participate in activities where they can show case their specialized technical skills, such as

- Students participation in events such as hackathons where they acquire the coding skills needed for employability
- Peer-to-peer learning has been put into practice where the 2nd year students teach their 1st year counter parts
- Group discussions and forums
- Inclusive participation of the students by forming a Whatsapp group where they circulate concrete study materials

3) Problem-solving methodologies:

Departments inspires students to attain and develop problem-solving skills

- Organizes Guest lectures offered by subject experts,
- Motivate students to join MOOC courses,
- Encourages to participate in various inter-college and intra-college technical fests and other activities like in-house summer training in the form of Capstone project,
- Regular Assignments and online quiz based on problem solving methodologies
- Bridge course is conducted by the department to bridge the gap between school and collegiate studies on the problem solving methodologies

Detailed Report of the Skill Based Development Programme

Title

Skill Based Development Programme on Foundations of Mathematics and Computer Science

Date: 16.08.2022 to 26.08.2022

Preamble

Skill Based Development Programme on Foundations of Mathematics and Computer Science has been jointly conducted by the Department of Computer Science with Data analytics and Department of Computer Science with Artificial Intelligence and Machine Learning from 16.08.2022 to 26.08.2022 (10 Sessions) at NGM College for the First Year Students of both the programmes

Objective

- To bridge the gap between subjects studied at school level and subjects they would be studying in degree level
- To brush up the fundamental knowledge of mathematics and computer science of the students and prepare them for current course

Methodology

- Action plan of the bridge course is prepared well in advance and get it approved by respective HOD and Dean
- Power point presentation, chalk and talk methods have been adopted for the theory subjects.
- Hands on training and interactive sessions are conducted for laboratory sessions.

Event Outcome

As per the results of the quiz conducted at the end of the Skill Development Programme, it is evident that most of the students who attended the programme have gained the knowledge and skills of basic concepts of Mathematics and Computer subjects. And on average, 75% of marks was scored by students.

Participants Profile

A total of 29 students from Department of Computer Science with Data Analytics and Department of Computer Science with AI and ML were participated

Skill Based Development Programme

Description of the Program

The Skill based Development Programme was inaugurated by Dr. Saravana Babu Dean-Academic and Dr. Umapathy, Dean- Research along with the inaugural speech highlighting the importance of the programme.

Session 1

Resource Person: Dr. B. Azhagusundari, Associate Professor, Department of BCA, NGM College, Pollachi

Title: Matrix Operations and Set Theory

Date: 16.08.2022

Dr. B. Azhagusundari narrated the basic concepts of Matrix and its operations. She extended her presentation to set theory and its applications. She also explained how these topics are useful to the computer field and especially in the field of Data analytics and Artificial Intelligence and Machine Learning

Session 2

Resource Person: Mrs.G.Angayarkanni, Assistant Professor, Department of Computer Science, NGM College, Pollachi

Title: Number Theory and Types of Equations

Date: 17.08.2022

In this session, number theory and type of equations were delivered. **Mrs**.G.Angayarkanni, clearly explained the concept of number theory which helps discover interesting relationship between sorts of numbers and to prove that these are true. She also explained the concept of Linear equation and linear algebra which is the most important skill set for machine learning. She gave a brief idea of usage of Linear algebra in data pre-processing, data transformation and model evaluation

Session 3

Resource Person: Ms.A. Kalaivani, Assistant Professor, Department of Computer Technology, NGM College, Pollachi

Title: Probability and Statistics, Mathematical Logic

Date: 18.08.2022

Ms. Kalaivani taught the prerequisite knowledge in the fundamental concept of probability and statistics & mathematical logic. She taught how probability, statistics & mathematical logic are

Skill Based Development Programme

strongly connected in deriving algorithms in data analytics. She also gave thorough information on some of the mathematics terminologies, definitions, dependent events, independent events, conditional probability, real-world examples, mathematical logic-based terms, propositions on data, problems, the way that statistics provides the procedures for deriving results from sample data, and also explained how the data examinations and evaluation are done with small data as well as mentioned the strengths and major role of mathematics concepts in artificial intelligence and machine learning projects.

Session 4

Resource Person: Mrs. S. Sharmila, Assistant Professor, Department of Computer Science, NGM College, Pollachi

Title: Operations Research, Functions and Relations

Date: 22.08.2022

Mrs. Sharmila introduces the fundamentals of Operations Research and its functions. She explained how to solve the linear programming problems using appropriate techniques and optimization solvers, interpret the results obtained. She explained the optimal strategy for Minimization of Cost of shipping of products from source to Destination/ Maximization of profits of shipping products using various methods, finding initial basic feasible and optimal solution of the Transportation problems

Session 5

Resource Person: Mrs.Jeyalakshmi, Assistant Professor, Department of Mathematics, GVG College, Udumalpet

Title: Numerical Methods

Date: 23.08.2022

The main objective of this session is to learn the procedure of simultaneous linear algebraic equations using direct and iterative methods. Simultaneous linear algebraic equations which is used in the field of Science and engineering was solved using Cramer's rule and matrix methods. These methods however become tedious when the number of unknowns in the system is large. Thereby various numerical methods such as Gauss elimination method, Gauss Jacobi method, Jacobi method , Gauss Seidel method and relaxation method for finding the solutions were developed which are well suited for implementation in computers. The students will be able to create, analyse, and implement algorithms to solve problems.

Skill Based Development Programme

Session 6

Resource Person: Dr. Gandhimathi, Assistant Professor, Department of Science and Humanities, PA College of Technology, Pollachi

Title: Calculus

Date: 23.08.2022

Dr. Gandhimathi introduced the concept of calculus that deals with the properties of derivatives and integrals of quantities such as area, volume, velocity, acceleration, etc., by processes initially dependent on the summation of infinitesimal differences. It helps in determining the changes between the values that are related to the functions. She also explained three main tools such as limits, derivatives, and integrals for analysing and describing the behaviour of functions. She also insisted the students to use these tools to solve applications-oriented problems.

Session 7

Resource Person: Dr. E. Rama Devi, Associate Professor, Department of Computer Science with Data analytics, NGM College, Pollachi

Title: Computers – Basics to Advanced

Date: 25.08.2022

Dr. E. Rama Devi gave the awareness on the foundations of Computer Science from the Scratch and she explained in detail about the Organisation of Computer. She detailed the concept of primary storage, secondary storage and the concept of processors. She also gave the detailed awareness on the types of software and translator. She explained the important terminology like complier, assembler, operating system and interpreter. She introduced the concept of data, and explained the recent technologies related to data like Data Mining and Big Data. She also gave the awareness on the advanced technologies like Cloud Computing, Data Science, Artificial Intelligence, Machine Learning, Internet of Things, Hacking and Cybersecurity.

Session 8

Resource Person: **Dr. S. Niraimathi,** Associate Professor, Department of Computer Science with AI and ML, NGM College, Pollachi

Title: Applications of Artificial Intelligence

Date: 25.08.2022

Dr.S. Niraimathi handled this session on Applications of Artificial Intelligence. This session threw the insight into the nuances of AI and its use cases. She highlighted the applications of AI

Skill Based Development Programme

in almost all the domain in the real world and environment of its usability. She also covered the inter domain of AI and Analytics, AI and IOT and other inter domain applications.

Session 9

Resource Person: Dr. K. Thilagam, Assistant Professor, Department of Computer Science with Data Analytics, NGM College, Pollachi

Title: Data Management

Date: 26.08.2022

The objective of this session is to provide the students an insight about data, and its representation in computers and the terminologies used in data processing. Dr. Thilagam motivated the students to know the techniques used in storing and processing data in the computer. She also provided the foundation for the students to study the techniques used in handling large volumes if data and also the techniques for analysing data and deriving useful information specific to various applications. The students were eager to know about Big data, Cloud storage and also its impact on the

society and in various industries. They understood the need of Data analysis and its application in Machine learning.

Session 10

Resource Person: Mrs.M.Thavapriya, Assistant Professor, Department of Computer Science, NGM College, Pollachi

Title: Introduction to IOT

Date: 26.08.2022

Mrs. Thavapriya introduced the concept of Internet of Things which is a system of interrelated computing devices, mechanical and digital machines, objects, animals or people that are provided with unique identifiers and the ability to transfer data over a network without requiring human to human or human to computer interaction. She also gave the awareness of IOT on various applications like agriculture, Healthcare, Insurance etc. She gave the hands on experience on the usage of Raspberry Pi.

Detailed Report of the Skill Based Development Programme

Title

Skill Based Development Programme on Data Analytics using HADOOP

Date: 08.12.2022

Preamble

Skill Based Development Programme on Data Analytics using HADOOP has been jointly conducted by the Department of Computer Science with Data analytics and Department of Computer Science with Artificial Intelligence and Machine Learning on 08.12.2022 at NGM College for the First Year Students of both the programmes

Objective

- To know the fundamentals of Data analytics and its tools
- Working principle of HADOOP Technology

Methodology

- Action plan of the Skill Based Development Programme is prepared well in advance and get it approved by Dean and Principal
- Power point presentation have been adopted for the presentation

Event Outcome

Students gain the knowledge of Data analytics and its usecase. They also understand the concept and the working principle of Hadoop.

Participants Profile

A total of 27 students from Department of Computer Science with Data Analytics and Department of Computer Science with AI and ML were participated

Description of the Program

The Skill based Development Programme was inaugurated by Dr. Saravana Babu Dean-Academic and Dr. Umapathy, Dean- Research along with the inaugural speech highlighting the importance of the programme.

Resource Person:

Dr. A. KrishnaKumar

Assistant Professor

Title: Data Analytics using HADOOP

Date: 08.12.2022

Dr. A. KrishnaKumar, initiated his presentation with the fundamental concepts of Data Analytics and its need to the current scenario. He explained the different types of data analysis and what a data analyst can do. He also detailed about Apache Hadoop, which is an open source framework that is used to efficiently store and process large datasets ranging in size from gigabytes to petabytes of data. Instead of using one large computer to store and process the data, Hadoop allows clustering multiple computers to analyze massive datasets in parallel more quickly. He elaborated four main modules of Hadoop

- **Hadoop Distributed File System (HDFS)** – A distributed file system that runs on standard or low-end hardware. HDFS provides better data throughput than traditional file systems, in addition to high fault tolerance and native support of large datasets.
- **Yet Another Resource Negotiator (YARN)** – Manages and monitors cluster nodes and Resource usage. It schedules jobs and tasks.
- **MapReduce** – A framework that helps programs do the parallel computation on data. The map task takes input data and converts it into a dataset that can be computed in key value pairs. The output of the map task is consumed by reduce tasks to aggregate output and provide the desired result.
- Hadoop Common – Provides common Java libraries that can be used across all modules.

He ended up his session with career path in Data analytics. He also pointed out that there are multiple jobs opportunities in various industries with the demand for data analytics professionals increasing day by day. Some of the career opportunities that require data are Data Analyst, Data Scientist, Data Engineer, and Business analyst, Statistician, Machine Learning Engineer and Quantitative Analyst

Detailed Report of the Workshop

Title

Workshop on “An Insight into Project building using Python Data Science Libraries”

Date: 27.04.2023

Preamble

Workshop on “An Insight into Project building using Python Data Science Libraries” has been organized by the Department of Computer Science with Artificial Intelligence and Machine Learning on 27.04.2023 at NGM College for the First Year Students of the course

Objective

- To Imbibe the basics concepts and capacities of building a Project
- To impart the Technical know-how of using Data Science Libraries in Python to facilitate Project building

Methodology

- The technical nuance of extracting data from the Dataset has been demonstrated by extracting Heart Disease Dataset from Kaggle. Other important Datasets too were highlighted
- Project building has been demonstrated step by step by incorporating the Data Science Libraries in Python like Pandas, numpy, and Matplotlib
- Knowledge transfer of the Workshop has been done using Power point presentation and Spyder

Event Outcome

- Students got hands on session on Project Building.
- Awareness on using Python Data Science Libraries in order to build a Capstone project
- To use the Datasets from different Data source like Kaggle and others

Profile of the Participants

A total of 18 students from Department of Computer Science with AI and ML attended the session

Resource Person: Ms. R. Saranya
Assistant Professor, Department of Computer Applications
CMS College, Coimbatore

Title: An Insight into Project Building using Python DataScience Libraries

Date: 27.04.2023

Ms. R. Saranya is an Assistant Professor doing her Ph.D in our Institution under the guidance of Dr.S.Niraimathi. Her Ph.D work is on Machine learning incorporating the Python for Machine learning and Datascience Libraries.

Python is today's most popular programming language with endless applications in various fields. It is ideally suited for deployment, analysis, and maintenance owing to its flexible and dynamic nature.

Python for Data Engineering is one of the crucial skills required in this field to create Data Pipelines, set up Statistical Models, and perform a thorough analysis on them. Taking this in to consideration and their ongoing Capstone project this Workshop was organized.The Presentation was streamlined into 3 modules

About Python DataScience Libraries

This module threw light on the essentials of Datascience libraries like Pandas, numpy, JSON etcetera and how to incorporate these Libraries for building a Project

Know the Datasets

The well-known public datasets commonly found in Kaggle, OpenML and other Datasources were highlighted

Project building using Python

This Module provided valuable insight into Python Project ideas for beginners and how to do small projects in Python, which proves to be a good way to understand Python more deeply and become more competent in it.

From

HOD, Department of Chemistry, NGM College, Pollachi

Industrial visit has been arranged for 3rd year B.Sc. Chemistry students to visit CSIR-Central Leather Research Institute, Chennai from 25th September (4.00 PM) to 27th September 2023 (7.00 AM). This research institute visit will benefit the students to gain knowledge in their subjects and also motivate them to take up higher studies. Therefore, I kindly request the Principal, NGM College to permit us to visit CSIR-CLRI, Chennai. The necessary documents pertaining to this trip has been enclosed.

List of documents enclosed:

1. Participants name, their parents contact number and their personal contact number
2. Accompanying faculty members name and their contact number
3. Tentative program list
4. Undertaking form from students
5. Permission letter from parents
6. Permission letter

DEPARTMENT OF CHEMISTRY (UG-AIDED)

REPORT ON INDUSTRIAL VISIT TO CSIR-CLRI, CHENNAI

The Department of Chemistry organized an Industrial Visit for the final year B Sc Chemistry students to Council of Scientific and Industrial Research(CSIR)- Central Leather Research Institute (CSIR-CLRI),Adyar, Chennai on 26thSeptember 2023 (on CSIR Foundation day). The total number of students was 43, accompanied by 2 staffs – Dr Indumathy Ramasamy and Mr K Pradeep.

The trip began on 25th September 2023 and all the students assembled at Pollachi Railway Junction to board train to Chennai and reached MGR Central Railway Station on 26th September early in the morning. After refreshment, we proceeded to CSIR-CLRI Institute.

The students and faculty members reached the campus at 9.30 AM and had their breakfast. They all first visited the Centralised Instrumentation Facility centre and then the Leather Designing Lab where they had exposure to various analytical instruments like TGA, Flame photometer, UV spectrophotometer, Raman Spectrometer, IR spectrometer, Mass spectrometer etc. After a short tea break, they visited the Chemical lab followed by Advanced materials Laboratory. They had their lunch and then visited the Organic and Biochemistry labs. They also visited the NMR Lab where they learnt about the Instrument and sampling technique in detail. They also visited pilot plant and left the campus at 5:00 PM and reached the MGR Central Railway Station and boarded the train to Pollachi. We reached Pollachi on 27th September at 8:30 AM.

OUTCOMES

The students were able to

- Witness lot of new instruments which are used in modern chemistry lab
- Learn working principles of various analytical instruments which they were studying in their curriculum (Analytical Chemistry)
- Obtain knowledge about research and higher studies
- Learn about the R & D in Leather Technology

The students had given their feedback that the IV was informative, interesting and useful to know about future scopes and prospects in Chemistry and allied areas.
