Dear Professor,

Warm Greetings!

We, PG and Research Department of Mathematics, NGM College and PG and Research Department of Mathematics, Government Arts College, Coimbatore, have decided to organize a One day workshop on "Theory of Automata" on Jan 30, 2024 at 9.30 am. So, it's our privilege to have you as a resource person on that day. Kindly give your consent to be the speaker on that day.

Thanking you,

Pollachi

DEPARTMENT OF MATHEMATICS GOVERNMENT ARTS COLLEGE (A)

The Department of Mathematics has registered a steady growth right from its inception in 1946. It offers UG courses in B. Sc. Mathematics in both Tamil medium and English medium in Shift I and B. Sc. Mathematics English medium in Shift II, PG course M. Sc. Mathematics, M. Phil and Ph. D programmes both in Part Time and Full Time. The faculty is actively engaged in research. So far nearly 150 M. Phil candidates and 50 Ph. D candidates have successfully completed their degree. At present 36 students are pursuing Ph. D in diverse fields such as Operator Theory, Topology, Graph Theory, Fluid Dynamics, Algebra, Neural Networks, Automata Theory, Operations Research, Fuzzy Theory, Dynamical Systems and Differential Equations under the guidance of our faculty and have contributed more than 250 research publications in National and International peer reviewed and scopus journals.

DEPARTMENT OF MATHEMATICS NGM COLLEGE

The Department of Mathematics was established in the year 1959 with the B.Sc., programme and then upgraded as the Post Graduate Department in the year 1979. Induction of research programmes; M.Phil in 1983 and Ph.D in 1992 enriched it. The Department has competent faculties actively involved in teaching, learning and research. Our alumni has occupied leading positions in top ranked industries and premier institutes across the globe. The Department is deeply involved in research and shares the knowledge and transfer it to the academic through publications, collaborations, lectures and so on. In the last two decades, Department was instrumental to 202 M.Phil and 25 Ph.D holders. Our faculty members have published above 125 research articles in reputed International and National Journals and presented more than 90 research papers in the International and National level Conferences and Seminars. Recently the Department is supported by NBHM through annual library grant for purchase of books.

OBJECTIVE OF THE WORKSHOP

The objective of this workshop is to bring the students and faculty from various institutions on one platform where they can be motivated to acquire knowledge and promote research in the field, **THEORY OF AUTOMATA**.

ABOUT GOVERNMENT ARTS COLLEGE (A)

The Government Arts College, Coimbatore was established in the year 1852. During 1946-47 the college was elevated as under graduate institution by offering UG programmes. The college was upgraded to Post graduate level in 1969 and conferred Autonomy in 1987. At present, the college is offering various courses, out of which 23 programmes are at UG level and 21 programmes are at PG level. Almost all PG departments offer FT/ PT research programmes. The Government Arts College, Coimbatore consistently remains among top three Government Colleges in Tamilnadu. The college stands in the 32nd position as ranked by NIRF.

ABOUT NGM COLLEGE

Nallamuthu Gounder Mahalingam College has completed 65 years of dedicated and excellent service in the field of education. The college has been catering to the educational needs of students belonging to the rural and the first generation learners of this part of the country. NGM College achieved greater academic distinction with the introduction of autonomous system from the academic year 1987-1988. The college has blossomed into a premier teaching and research institution offering 43 different programs encompassing UG, PG and research degrees. The benevolence of the founders Nallamuthu Gounder and Arutchelver Dr. N. Mahalingam, the guidance of the President Dr. B. K. Krishnaraj Vanavarayar and support of the secretary M. Balasubramaniam have enabled the institution to become a coveted centre for higher studies. Academic excellence, expert faculty, research facilities and promising placements are the strengths of our college.

Report

Workshops are conducted among the students to focus especially on techniques and skills in a particular area. This helps the students to acquire knowledge in the particular field. Likewise we members of Department of Mathematics jointly organized a one day Workshop on "Theory of Automata" with Government arts college, Coimbatore on 30/01/2024 at Government Arts College, Coimbatore.

The Workshop started with inauguration at 9.30 am. Welcome address for the inauguration was given by Dr. N. Jayanthi, Convenor of this workshop. Madam welcomes the Chief guest Dr. N. Murugesan, Associate Professor of Mathematics, Government Arts College, Coimbatore. She insisted that such kind of workshops/Seminars should be conducted jointly every. Felicitations was given by Dr. P. Kanakaraj, Vice principal, Government Arts College, Coimbatore. He explained about the importance of mathematics and about history of few amazing mathematicians.

Next, Dr. V. Inthumathi, Convenor of this workshop gave a nice Vote of thanks thanking the management, Principals, Organizing secretaries of Workshop, all the faculty members and students of both colleges.

Next session 1 starts at 10.00 am

The speaker Dr. N. Murugesan explained the concept of finite state automata. Three types of automata namely Deterministic finite state Automata (DFA), Non-Deterministic finite state automata (NFA), Non-Deterministic finite state automata with ϵ -moves (ϵ -NFA) are defined and explained with examples. Equivalence of these automata is also discussed. The languages for which the finite state automata cannot construct are illustrated with a well-known lemma called Pumping lemma. The languages accepted by automation are called regular languages.

In Session 2

A finite state automation with additional device called stack is called Pushdown Automata (PDA). Mathematical description of PDA is explained with an example and in particular, how a non-deterministic PDA accepts the strings of its language is discussed with an example. The languages accepted by PDA are called context free languages. An example which is not a context free language is also discussed.

In Session 3

The most advanced theoretical abstract computing device called Turing machines is defined. Turing machines for both languages acceptors and computing functions are discussed. The languages for which a TM cannot be constructed are unsolvable, otherwise they are solvable. Some unsolvable problems are also discussed.

Finally, the workshop ends with valedictory function. Dr. V. Chitra, organizing Secretary of this workshop gave a warm welcome address. Then Dr. B. Selvaraj, Controller of Examination, Government Arts College, Coimbatore, gave a valedictory address. Finally Vote of thanks was given by Dr. P. Suguna, organizing secretary of workshop, Government Arts College, Coimbatore. She thanked each and every one who involved in conducting this workshop successfully. Certificates were distributed to staff and students. The workshop ends with National Anthem.
