

Medicinal plants for Human welfare

2020

Objectives

- Identify and document various medicinal plants known for their therapeutic properties.
- Compile information on traditional uses, cultural practices, and indigenous knowledge associated with these plants.
- Explore potential synergies between traditional and modern medicinal practices.

Vision

To create a comprehensive and dynamic learning environment that empowers students with the knowledge, skills, and ethical values necessary to excel in the field of medicinal plants and contribute meaningfully to global health and sustainability.

Mission

Our mission is to provide rigorous academic training grounded in scientific principles, traditional knowledge, and practical skills related to the identification, cultivation, processing, and utilization of medicinal plants.

Course Content

- Unit I - Historical account of Medicinal plants
- Unit II - Identification of Medicinal plants
- Unit III - Industrial uses of Medicinal plants
- Unit IV - Practical
 1. Identification of medicinal plants
 2. Soxhlet extraction of medicinal plants
 3. Herbal formulation basics

Evaluation Pattern

Part A - 05x05 = 25

Part B - 5X15 = 75

Total = 100

Certificate will be issued after completion of the course

Course Name: Medicinal plants for human welfare
Course Name: Biological Entrepreneurship

**PG and Research Department of Botany
Nallamuthu Gounder Mahalingam College, Pollachi**

***Value added course - Biological entrepreneurship/ Medicinal plants
for human welfare***

Course Objectives

- To teach the students knowledge and skills, which allow them to establish a mushroom cultivation enterprise
- To facilitate the students about the production of Biofertilizers
- To impart hands on training on cultivation, propagation and maintenance of *Azolla*
- To equip the students as a biological entrepreneurs
- To improve the professional competencies and upgrade the knowledge

Training Activities

- Providing cultivation practice for oyster mushrooms
- Hands on training in Biofertilizer production
- Training for *Azolla* cultivation technique, maintenance, harvesting and marketing

Course Highlights

- Morphology, types, nutritive and medicinal values and methods of mushroom cultivation
- Packaging, storage and shelf life of mushroom
- Introduction to Biofertilizers: Necessity, Scope and Benefits
- Types of biofertilizer inoculants: Isolation and cultivation
- Familiarity with culturing techniques and handling of biofertilizer microbes
- Biofertilizer Production: Media preparation, sterilization, microbial propagation, large-scale production, fermentation, formulation
- Biofertilizer field application strategies
- Commercial production of *Azolla* and its applications

Job Prospects

The main opportunities are in agriculture sector based industry / agriculture as research analyst, consultant, quality control laboratories and bio-entrepreneur.

Certificate course in Biological entrepreneurship/ Medicinal plants for human welfare

Intake capacity	: 20 seats
Learning mode	: Full time
Course duration	: Six months (July and January session)
Medium	: English
Eligibility	: All post graduates
Venue	: PG Botany Research lab
For Details Contact	: Dr. R. Rakkimuthu, Assistant Professor and Head, PG and Research Department of Botany

Mobile Number : 9787196819, 8825830890
