7.1.4. Maintenance of Water bodies and Distribution System in the campus

Water Distribution System in Campus

The water distribution system at the institution is well-designed and operates efficiently to ensure that students and faculty members have continuous access to clean and dependable water across the campus. The institution primarily sources its water from 2 wells and a bore well. Rainwater collected from rooftops is directed to recharge pits, and surface runoff water is directed through underground trenches to pits to replenish the underground aquifers.

Water from the wells and bore wells is stored in strategically located large tanks throughout the campus, providing substantial storage capacity to ensure an ample water supply. Municipal water is held in a sizable underground tank.

To facilitate effective water distribution, designated water taps are situated at different locations throughout the college, offering easy access to water for students and staff. Water refill stations (Water Doctors) are available on each floor of the buildings to dispense safe and clean drinking water. These water purifiers are connected to individual pipelines from the municipal water storage tank.

Moreover, the college has implemented a sprinkler system to irrigate the lawns and preserve the green spaces on the campus. The sprinklers are positioned to efficiently cover large areas, ensuring uniform water distribution. This practice not only contributes to maintaining the campus's visual appeal but also aids in water conservation by minimizing wastage.

Water is a precious resource, and it is our collective responsibility to use it wisely. We request everyone to ensure that all taps and pipes are tightly closed after use. Our campus maintenance team will be conducting regular inspections to identify and repair any leaks or faulty plumbing systems. We urge you to report any leaks or other water-related issues at the Reception desk promptly. It is essential that we all play our part in being responsible custodians of our environment.

Department of B.Com - Banking and Insurance

World Water Day-21.03.2023

The World Water Day is celebrated every year on 22.03.2023. The department of B.Com - Banking and Insurance celebrated World Water Day on 21.03.2023 because 22.03.2023 is a holiday. The theme for World Water Day 2023 is "Accelerating the change to solve the water and sanitation crisis". The main objectives of the day is celebrated to aware and inspire our students to sustainably manage the freshwater resources and learn more about water related issues like water pollution, water scarcity, in adequate water, and lack of sanitation and take appropriate steps to make a deference.

The students are capable to make a change in society and create a healthy and sustainable environment for future. Student are understand water is a vital element in every aspect of development for better production, better nutrition, better environment and better life.

The programme commenced with introduction speech by Dr. M. Jeeva, Associate Professor and Head, Department of B.Com - Banking and Insurance, Mr. M. Bavithran (22-BI-06) explained about "Introduction of World Water Day" followed by Mr. G. Jeevanantham (22-BI-13) expose his speech on "Theme 2023 for World Water Day" and Ms. M. Vasanthakumari (21-BI-34) described about "Importance and Advantages of Fresh Water" then continued by Ms. R. Lavanya (21-BI-27) spoke on "Methods of Rain water Harvesting". Dr. M. Jeeva Associate Professor and Head, and Ms. M. Shanmugapriya Assistant Professor were the co-ordinators for the program. Finally, 61 students take an oath to never waste water at our home, college and public places and use water wisely.

M. JEEVA, M.Com, M.Phil, PGDCA, MCA,

5. Awareness on Water on World Water Day - Department of Social Work - 22.03.2022

WORLD WATER DAY

WATER IS THE DRIVING FORCE OF ALL NATURE

Every year we celebrate the "World Water Day". We celebrated the day with utmost sincerity. Water is the most precious resource for arrival. But nowadays, the scarcity of water is really a threat to the whole world. This year our school selected the theme "Do not waste water". The aim of the programme was to aware the students about the water crisis around the world. Surveys reveal that 80% of all waste water is not reused. If water were reused, the shortage of water could be reduced to some extent.

On behalf of our social work department, the whole college takes an oath by taking pledge in intercom.

We draw an above picture about the water on that world water day. After that the principal, faculty members and the students joint together, we take a pledge in front the Vivekananthar Statue, by wearing the mask on the head and holding the posters in our hands. We distributed chocolates to the students and staff.

B.Com – Banking and Insurance

World Water Day - 22.03.2022

The department of B.Com – Banking and Insurance observed “World Water Day” on 22.03.2022. It is an annual United Nations observance day held on 22 March that highlights the importance of fresh water. It was observed since March 1993 and focused on the importance of freshwater.

The day is used to advocate for the sustainable management of freshwater resources to students community. The relevant issues include water scarcity, water pollution, inadequate water supply, lack of sanitation and the impacts of climate change. The day brings to light the inequality of access to wash services and the need to assure the human right to water and sanitation. World Water Day celebrates water and raises awareness of the 2.2 billion people living without access to safe water. It is about taking action to tackle the global water crisis.

Theme for 2022

This 2022, the focus is groundwater, an invisible resource with an impact visible everywhere.

Groundwater is water found underground in aquifers, which are geological formations of rocks, sands and gravels that hold substantial quantities of water. Groundwater feeds springs, rivers, lakes and wetlands, and seeps into oceans. Groundwater is recharged mainly from rain and snowfall infiltrating the ground. Groundwater can be extracted to the surface by pumps and wells.

Life would not be possible without groundwater. Most arid areas of the world depend entirely on groundwater. Groundwater supplies a large proportion of the water that is used for drinking, sanitation, food production and industrial processes. It is also critically important to the healthy functioning of ecosystems, such as wetlands and rivers. To inculcate the importance of water and saving of water among the students this programme was conducted.

The introductory speech was given by Dr. M. Jeeva. The students were spoken about the various topics of water. Mr. A. Raghavkrishna (21-BI-10) spoken about “History of World Water Day” followed by Mr. M. Karthick (20-BI-02) focused on “Benefits of Water”, Ms. N. S Divya Sri (20-BI-21) delivered on the topic “Purpose of Saving Fresh Water”, Mr. V. Kalceswaran (19-BI-08) talked about “Source of Water” and finally Ms. N. Udhayadharshini (19-BI-57) focused on “Disadvantages of Mineral Water”. This event was coordinated by Dr. M. Jeeva, Head of the Department and Ms. V. Poornima, Assistant Professor of the Department.
