Memorandum of Understanding (MOU)

This Memorandum of Understanding (hereinafter called as the 'MOU') is entered into on this the Eighteenth day of November, Two Thousand and Twenty One (18.11.2021), by and between

PG Department of Commerce with Computer Applications, Nallamuthu Gounder Mahalingam College (Autonomous), Pollachi - 642001, Coimbatore District, and represented herein by its Head of the Department, Dr. P.Anitha, (hereinafter referred as 'First party', the institution which expression, unless excluded by or repugnant to the subject or context, shall include its successors-in-office, administrators and assigns).

AND

Oasis Horti Coirs, 99/2A, Zamin Kottampatti, Pollachi, Coimbatore District and represented herein by Mr.Mohammed Jafer, (hereinafter referred to as "Second party", which expression, unless excluded by or repugnant to the subject or context, shall include its successors - in-office, administrators and assigns).

FIRST PARTY

SECOND PARTY

(First party and Second party are hereinafter jointly referred to as 'Parties' and individually as 'party').

WHEREAS:

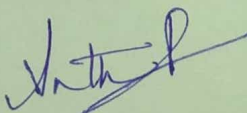

1. First party is a Higher Educational Institution, namely:
PG Department of Commerce with Computer Applications
Nallamuthu Gounder Mahalingam College (Autonomous)
Pollachi - 642001, Coimbatore District
2. Second party is a coir industry, owned and run by:
Oasis Horti Coirs
99/2A, Zamin Kottampatti,
Pollachi, Coimbatore District
3. First party & Second party believe that collaboration and co-operation between themselves will promote more effective use of each of their resources, and provide each of them with enhanced opportunities.
4. The Parties intent to cooperate and focus their efforts on giving institutional training to the students of PG Department of Commerce with Computer Applications, Nallamuthu Gounder Mahalingam College
5. Both Parties, being legal entities in themselves desire to sign this MOU for advancing their mutual interests.

Clause - 1: Aims and objective of the MoU:

6. **AIM:** To provide institutional training to students of PG Department of Commerce with Computer Applications, Nallamuthu Gounder Mahalingam College.

7. Major Objectives:

- ❖ To provide practical experience in a field or discipline
- ❖ To provide an exposure to the students on industrial environment and to create competent professionals for the industry.
- ❖ To Provide possible opportunities to learn, understand and sharpen the real time technical / managerial skills required at the job.

FIRST PARTY

SECOND PARTY

Reality Vs Challenges

- India Produces around **50 lakhs** graduates and **10 lakhs** postgraduates every year.
- Commerce students have limited career options – **CA, CS, CMA** as Professional Courses.
- Despite the capabilities and required skills most of them are **unemployed or under waged**.
- No focus on skill development and enhancement.
- Employed in non-core areas like operations, administration, HR etc .
- Once they get entrenched in jobs they are completely utilized as a **multi-tasking person**.
- Generalist (doing all work)at low salary working in all the departments.
- Most of the students fail to Choose Professional Courses and land up in **no man's land**.

Reality Vs Challenges

- India Produces around **50 lakhs** graduates and **10 lakhs** postgraduates every year.
- Commerce students have limited career options – **CA, CS, CMA** as Professional Courses.
- Despite the capabilities and required skills most of them are **unemployed or under waged**.
- No focus on skill development and enhancement.
- Employed in non-core areas like operations, administration, HR etc .
- Once they get entrenched in jobs they are completely utilized as a **multi-tasking person**.
- Generalist (doing all work)at low salary working in all the departments.
- Most of the students fail to Choose Professional Courses and land up in no man's land.

FORCE MAJEURE

Notwithstanding the provisions of the Agreement, **Either Party** shall not be liable for liquidated damages or termination for default, if and to the extent that, it's delay in performance or other failure to perform its obligations under the contract is the result of an event of Force Majeure.

For purposes of this Clause, "Force Majeure" means an event beyond the control of the Parties and not involving the Party and not involving the Party's fault or negligence and not foreseeable. Such events may include, but are not restricted to, acts of God, wars or revolutions, fires, floods, epidemics, quarantine restrictions and freight embargoes.

Dr. S. MUTHUKUMARAVEL,
MA., M.Phil., PGCTE., PGDTS., Ph.D.,
Assistant Professor and Head,

If a Force Majeure situation arises, Either Party shall promptly notify the Other Party in writing of such conditions and the cause thereof. Unless otherwise directed, both Parties shall continue to perform their obligations under the contract as far as reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the Force Majeure event.

Mutual Indemnification

Either Party hereby agrees to indemnify the Other Party and its properties duly from and against all actions, demands, proceedings, prosecutions attachment and the like arising out of this memorandum of understanding.

Innovation & Entrepreneurship Outreach Program to REST-NGO SHG Members

Report

Department of Mathematics and Institution's innovation council jointly organized an Innovation and Entrepreneurship outreach program to REST-NGO SHG members. In this program our students of UG and PG Mathematics acted as trainers and trained the SHG members of Eripatti especially Women about putting mehandhi, cake preparation and basket knitting. This training helps the women to start a small scale business and they were happy about this training. Our students were also motivated and got an idea to start a small business.

Course Code:	22VAD301			Title	Batch:	2022 – 2024
				Value Added Course: Python Programming	Semester:	III
Lecture Hrs./Week or Practical Hrs./Week	-	Tutorial Hrs./Sem.	-		Credits:	GRADE

Course Objective

To introduce Python programming to solve scientific and technological problems

Course Outcomes

On the successful completion of the course, students will be able to

CO Number	CO Statement	Knowledge Level
CO1	Acquire the knowledge to analyze the problem	K1 / K2
CO2	Plan to write the algorithm of a program with the knowledge of mathematical operators, logical operators, conditional and looping statements	K3
CO3	Analyze the problems in various domains of physics to write the program using python codes	K4
CO4	Explain clearly the importance of different function statements and pass the arguments between functions	K5
CO5	Device and compile the python programming for application in the field of science and technology	K6

Units	Content	Hrs
Unit I	Basics of Programming Basis of programming– IDLE - variables and data types – strings – manipulating data – operators - syntax	10
Unit II	Control Statements, Looping, File Handling Control statements: if, if-else, nested if-else – loops (for, while); nested loops – break – continue – pass - text files – file handling and directories – - printing on screen – reading and writing of data in a file - opening and closing a file	10
Unit III	Functions and Modules Defining a function - Calling a function – Types of functions – Function arguments – python modules - Importing module – commonly used modules – writing and executing python program for few scientific problems	10
	Total Contact Hrs	30

Pedagogy and Assessment Methods:

Seminar, Power Point Presentation, Chalk and talk, Quiz, Assignments, Group Task.

VALUE ADDED PROGRAM

S.no	PCB AND CIRCUIT DESIGN-SYLLABUS	Modules
1	INTRODUCTION TO CIRCUIT DESIGN Fundamental of circuit design – Creating new components – Introduction to Analog circuit design - Introduction to Digital circuit design – Placing symbols and ports - Labeling components – Circuit optimization.	Module 1
2	INTRODUCTION TO PCB DESIGN Definition and Evolution of PCB – Purpose of PCB- Types of PCBs– Creating the blank PCB – Defining a sheet template – Printed circuit technology – PCB construction –PCB Printing and Etching process.	Module 2
3	PROTEUS PCB SCHEMATIC Defining the Board shape & Placement Boundary – Creating a board outline & Placement/routing boundary- Basic concepts of PCB Designing – Schematic capture – From Schematic to PCB – Placing ,editing and connecting parts and electrical symbols – Adding and editing graphics and text.	Module 3
4	PROTEUS PCB EDITOR Creating and editing parts – Preparing to create a net list – Creating a net list – Exporting and importing schematic data – PCB material – Board layers, colors and grids – Defining the Electrical/Mechanical layer – Defining PWR/GND layers.	Module 4
5	DESIGN TRANSFER TO THE PCBA ND DESIGN RULE CHECK Design synchronization with schematic tool – Design transfer using a Net list – Design rules concepts – Design Rule Checking.	Module 5
6	COMPONENT PLACEMENT & SHEIDING Placing components – Finding components for placement – Shielding components – Copper Pour – PCB layout routing and grounding - Routing guidelines.	Module 6
