DAY 1 [30.04.2023] - VISIT TO ALLEPPEY BOAT HOUSE, KERALA.

The first place to visit was Alleppey Boat House , situated in Alappuzha, Kerala. House boats are widely used in the Indian state of Kerala. These have thatched roof covers over wooden hulls. The traditional kettuvallam is mainly used for promoting Kerala tourism. The history of such boats in Kerala goes back to Uru, a large Dhow-type wooden ship made by the carpenters in Beypore, south of Kozhikode port. The journey on the boat taught us how simple and yet joyous lives in the villages are, where people are not in a hurry to surpass anyone, away from the maddening traffic and suffocating pollution, where life is at a pace that is so different from what we are used to.

DAY 1 [30.03.2023] - VISIT TO VEMBANAD LAKE , KERALA.

The second place to visit was Vembanad. It is the longest lake in India, as well as the largest lake in the state of Kerala. The lake has an area of 230 square kilometers and a maximum length of 96.5 km.[2] Spanning several districts in the state of Kerala, it is known as Vembanadu Lake in Kottayam, Vaikom, Changanassery, Punnamada Lake in Alappuzha. We had a great experience while traveling on the lake via house boat. And it is an ideal habitat for shrimps. Major livelihood activities of the people living on the shores of the lake include agriculture, fishing, tourism, inland navigation, coir retting, lime shell collection. So from that we came to know the life styles of people who depends on the lake.

DAY 1 [30.03.2023] -VISIT TO KAINAKARY, KUTTANAD TALUK , KERALA.

The third place to visit was kainakary. Kainakary is a village in Kuttanad Taluk in Alappuzha District of the Indian state of Kerala. Five rivers originating from the Western Ghats, including the sacred Pamba River, drain into the Vembanad lake in the tip of Kainakary. The village itself has numerous small water bodies, rivers, canals and ponds. we had a great experience with People dwelling near to canals and river banks mainly. We had also experienced the paddy lands which make up the major part of the village. These paddy lands are below sea water level. So the rice cultivation in this area is unique and well appreciated.

DAY 1 [30.03.2023] - VISIT TO TERMINAL LAKE , KERALA.

The fourth place we visit on this day is Terminal lake. Kainakary Terminal is in Kuttanad Taluk in the Alleppey district of the Indian State of Kerala. It is famous for its unspoiled scenic beauty. Tourists can pick houseboats and Shikara boats from here for a backwater trip in Vembanadu lake. This terminal has been a significant shooting location for television and music videos because of its scenic beauty. It is also the place where one can see a perfect sunset. We have enjoyed the great view of sun set from this terminal. The place is very quite and calm with cool breeze and fresh air, and we have enjoyed the view of back waters.

DAY 2 [31.03.2023] FRIDAY - VISIT TO ANJUTHENGU FORT , VARAKALA.

The First visit of this day was Anjuthengu Fort, varakala, Kerala. The fort was the East India Company's first permanent post on the Malabar Coast. In November 1693, John Brabourne was sent by the British East India Company (EIC) to Attingal, where he obtained from Rani Ashure a grant of a site for a fort on the sandy spit of Anchuthengu (then known as Anjengo), together with the monopoly of the pepper trade of Attingal. The EIC commenced construction in January 1696. We came to know the history and pride of this fort by visiting it.

DAY 2 [31.03.2023] FRIDAY - VISIT TO ANJENGO LIGHT HOUSE, VARAKALA.

The second visit of this day is the light house. The Varkala Light House stands tall at 130 ft. It was built by the East Indian Company in 1684. You can ascend the light house to get a clear and panoramic view of the surroundings from there. It is reminiscent of the British styles of architecture of the 17th century. We have enjoyed the panoramic view of the surroundings from there. The surrounding areas include the Arabian Sea, the backwaters and the town of Varkala.

DAY 2 [31.03.2023] FRIDAY - VISIT TO VARKALA BEACH, KERALA

The very next place to visit on this day is varakala beach. Varkala Beach, also known as Papanasham Beach is a beach situated in Varkala Town of Varkala Municipality in Thiruvananthapuram district, Kerala, India. The beach skirts the Arabian Sea, part of the Indian Ocean. We had enjoyed the view and also it gave us a chance to collab with people from various places around the world and helped us learn various cultures. Varkala beach is the only place in southern Kerala where cliffs are found adjacent to the Arabian Sea. These cliffs are of tertiary sedimentary formation, and named by geologists as Varkala Formation. They are a geological monument as recorded by the Geological Survey of India. Water spouts and spas occur on the sides of these cliffs.

DAY 2 [31.03.2023] FRIDAY - VISIT TO VARKALA CLIFF, KERALA

The last place to visit on this day is varakala cliff. This 80 feet high red laterite cliff is unique as it is a veritable blueprint of geological changes from during the mio-pliocene age (1.3 to 25 million years ago). Its sedimentary geo-morphological structure bears evidence of unique geological features such as changes in the sea and soil structures and even has small fossils embedded in them. It gave us an enthusiastic view over the sea. It is known as a 'Warkallai formation' and has been declared as a potential Geopark by UNESCO. There are 90 geoparks around the world, but the Varkala cliff is the first in India.

FEEDBACK

ON 23rd march 2022, we went for a field visit at CIT College, Coimbatore regarding cyber security session organized by Department of Computer Science. Through the visit we gained knowledge about cyber security and they explained more about digitalized smart city. Now a days, everything is becoming digitalized. We got opportunity to see the futurized model of digitalized smart city. Maximum of software they used is based on currently popular and easy language python. They used sensors to detect the moving object that was controlled by authorized user. It was a nice experience.
