Consolidated Feedback

Alumni Feedback about course

Alumni students gave suggestions to include Software Engineering, Software Testing and Cloud Computing courses in the curriculum and as per their suggestions these papers were introduced through Board of Studies in our program. A very good feedback on practical papers such as VB.Net, PHP and HTML were given, which drove them for their placements and career development. Program also helped in pursuing their higher studies in an ease way. Few courses helped them technically and few programming language papers in development side. A very good feedback on our national language Hindi certification course was given which helped them to get placements all over India and make their future better.

Mostly students suggested that the depth of the course content is very good and the curriculum is good and also applicable to real life situation. Overall the feedback about the program is very good. Some of the students also suggested that relevance of additional source materials in library is satisfactory.

Consolidated Feedback

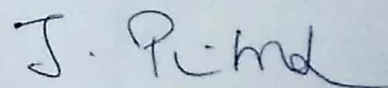

Faculty Feedback

HOD and Faculty members strongly agree that our course objectives and outcomes are well defined and it is focusing on employability and they have complete freedom to contribute themselves in curriculum design and development.

Agree that adequate ICT resources are available for effective teaching. Suggest for providing individual laptop to each faculty members which will also help to implement ERP easily. Latest edition books in library can be purchased for further improvement in curriculum.

Teachers strongly agree that they are encouraged to carryout research and research relevant activities like conference, seminars and workshops. Faculty members strongly agree that publications by teachers are periodically encouraged and appropriately rewarded. Suggest for orientation programme to improve consultancy.

Teachers agree that adequate infrastructure is available and they suggested to improve computer lab infrastructure. In governance of the college faculty members strongly agree that required initiatives are taken towards improvement in academic standards. Teachers agree that well-being of staff members is sufficient. Appraisal for the faculty members with respect to their academic qualification progression and teaching experience can be enhanced.
