

Hornbill Nature Club

Introduction:

To enlighten the students with total dedication and bring out the hidden skills & creativity. We have organized a "Hornbill Nature Club" from inception. Apart from our curriculum design & development, its faculty members & students are interested to observe natural ecosystem in and around pollachi with due emphasize on western ghats Indiraghandhi Wildlife Sanctuary which is one of the hot spots in India.

Our Zoology students periodically visited the places like Valparai, Topslip, Kodaikanal & moonar which are quite interesting places. where the animals, birds are seen in large number.

Totally, our students are enjoying and learning about ecosystem & animal behaviours from this wonderful club.

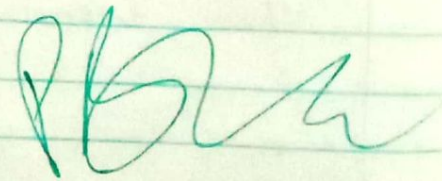

- ⇒ To create awareness, motivate the students about environmental conservation.
- ⇒ To conduct Educational trip
- ⇒ Environment cleanliness
- ⇒ Animal welfare activities
- ⇒ Birds watching
- ⇒ Video clipings

February 2008

Hornbill Nature clubEcotrip to Kodaikanal

15.02.08

- * On 15th January 2008, a team of 21 students (II & III year Zoology Students) along with 2 staff members went to Kodaikanal for an ecotrip. In Kodaikanal students are enjoyed the beautiful scenery of
 - * Hills
 - * Silver falls
 - * Garden
 - * Mountain view
 - * Coakers walk
- * They saw a variety of insects and animals. It was very useful to the students.
- * Our students are quite interested & involved in collection of photographs from newspapers about the animals & birds.

April 2009

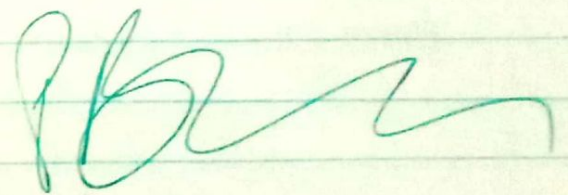

5

Hornbill Nature club

Field visit to Moonar.

09.04.2009

- * Nature club members of Zoology students of our college made a visit on 09.04.2009, to Moonar.
- * In Moonar our club members of our students saw the insects & birds like eagle, woodpecker, squirrel & chameleon & so on.
- * It was a very useful visit for our students.
- * Final year Zoology students participated & got benefitted.
- * These educational trips to natural ecosystem are used to learn so many things from nature.

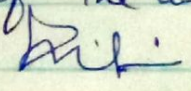

Hornbill Nature club

Ecosystem visit to Kodaitanal

03.04.12

- ⇒ Hornbill nature club members of our college make an ecosystem visit on 03.04.2012 to Kodaitanal.
- ⇒ 28 students of zoology department participated in this visit. 2 staff from our department along with them.
- ⇒ This trip was helpful to our club members to see the various reptiles, birds & animals naturally.
- ⇒ This was used to our students to get knowledge from live animals ^{& their adaptability in the ecosystem.} which was studied on their curriculum.
- ⇒ Periodically our students visit & Bird's watching from our college campus.

Signature of the Co-ordinator

April 2013

Hornbill Nature club

MEETING MINUTES

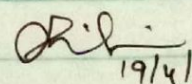

19.04.13

3-3:30pm

- ⇒ Hornbill Nature club meeting was held in zoology lab at 3-3:30pm.
- ⇒ ~~Dr. Suresh Kumar~~ was the guest speaker of this event.
- ⇒ I & II year students of zoology dept. are participated in this meeting & get benefited.
- ⇒ Co-ordinator, Dr. V. S. Haralakshmi was the ~~guest~~ speaker of this day.
- ⇒ Co-ordinator discussed about the plastic free environment and the activities of nature club.
- ⇒ She motivate the students

July 2013

Hornbill Nature club

"Save Animals"

Meeting Minutes

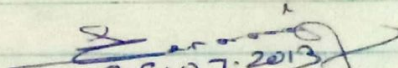

25.07.2013

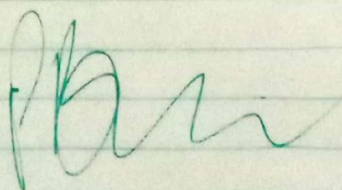

Thursday

3-4 pm

Hornbill Nature club meeting was held at Zoology Lab at 3 pm - 4 pm. S. Gopalakrishnan Secretary & founder, Evergreen Environmental Conservation Group was an chief guest. He gave lots of information about Ecosystem. He talked about "Save Animals"

- Save natural forests
 - Western Ghats are one of the major Biodiversity hotspots.
 - Parambikulam - Aliyar project (Interstate project)
 - we should protect the natural resources
 - Avoid deforestation.
 - He talks about gave some information about animals like Hornbill, Lion tailed monkey, Snakes, crocodiles, Honey bees (social insect), Bison, wild hog (forest ploughing), tiger (Tiger conservation), elephants,
 - More than 50 students participated.
 - we should conserve from microorganisms to higher mammals.
 - Each & every animals contribute their role for ecosystem. we should contribute something to Ecosystem
- He concludes;
Health of the hills is wealth of the plains

SHORT FILM SHOW

18.09.14

Thursday

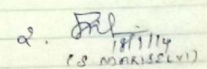

3-4 pm

On 18th September 2014, A short film show was showed for our Hornbill Nature club members of our department. 23 Students were participated and enjoyed this show. The major concept of this show was the comparison of evolutionary trends of various animals from invertebrates to vertebrates.

Animals compared with human beings such as Amphibians, Reptiles, birds, Mammals etc.

CAMPUS VISIT

21.01.15

- * Hornbill Nature club members of DB Zoology Students made an arrangement to visit our campus on 21st January 2015 at 3 pm.
- * 28 members are participated in this visit and one of the co-ordinators Ms. S. Mariselvi, Assistant Professor of Zoology was accompany with them.
- * This visit was very interesting and useful to know the birds watching of our students.
- * They have seen the birds like, crow, wild crow, mynah, owl, sparrow, dove and so on.
- * They have seen the Reptiles like chameleons, Calotes and small insects, butterflies, etc
- * It was enjoyable visit to them.

VIDEO CLUB COLLECTION

2nd week of July

Hornbill Nature club members of A3 Zoology students were involved in the club activities. They have collected the different types of video clips about animal behaviours.

This kind of activity makes the students are very interestingly knowing something about living beings they know, how the wild animals are lived, feed & hide, how the environment makes the changes in their life style, how the herbivores are struggle for survival and we know how they can live colonial life in their habitat and also know some peculiar characters of some of the animals.

VIDEO CLIPS COLLECTION

18.09.2015

- ⇒ Hornbill Nature Club members of our college (103 students of Zoology) were collected video clips related with our subject (Zoology)
- ⇒ These video clips are played for 30 minutes
- ⇒ Students are collecting these types of video clips with very much interestingly.
- ⇒ These also made our students are having awareness about some animals & their behaviours.
- ⇒ They have knowledge about the animals feeding behaviour, Parental care of animals, Reproductive behaviour of animals, Biology & characteristics taxonomy of animals.
- ⇒ Evolutionary relationship between animals, what are the ancestral animals, these clips are used to know & having knowledge about them.

BIRD'S WATCHING

08.01.16 - 18.01.16

⇒ From bill Nature club members & Zoology students were assigned to watch 'Birds' behaviour, Number of Birds, & so on in their own native villages for about 10 days.

⇒ They keep watching birds at early morning & evening times regularly for 10 days. What are the birds come to their villages? Why the birds come there? What are the behaviours? Finally, after 10 days they have submitted their original dates to the Nature club co-ordinator S. Maheshwari.

COLLECTION OF VIDEO CLIPPINGS

17.02.2016

⇒ From bill Nature club members of our Zoology students collected some videoclippings related with animal hunting behaviours.

⇒ From these types of video clippings collections made them aware & motivate the knowledge about hunting behaviours of different animals such as lion, tiger, cheetah, hyena and a large reptile crocodile.

⇒ They are collected five diff. animals hunting behaviours. They have collected very interestingly.

co-ordinator

2. P. L. S.

⇒ Hornbill Nature Club members of Zoology students were assigned to watch different types of fauna behaviour, habitat & so on in their own native places for a week.

⇒ They keep watching in morning times for various kinds of birds, like morning hours reptiles like calotes, chameleon, Mabuia etc. and insects to be watched in evening to night times and recorded regularly.

Grat's for change.

Campus Visit

→ Hornbill Nature club members of Zoology Students visit our college campus on 30th July

→ All the Final year Students were participating in this visit along with them Nature Club Staff Incharge S. Mariselvi and our Department Lab Assistants M. Marimuthu & K. Sudharani accompanying.

→ They have seen various insects, butterflies, reptiles, Birds, wood pecker and so on.

→ This type of campus visit will help them to learn the animal behaviours. All of them participated interestingly.

Staff In-charge.
