## ABOUT THE INSTITUTION

A nation's growth is in proportion to education and intelligence spread among the masses. Having this idealistic vision, two great philanthropists Late. S. P. Nallamuthu Gounder and Late. Arutchelver Padmabhushan Dr.N.Mahalingam formed an organization called Pollachi Kalvi Kazhagam, which started NGM College in 1957, to impart holistic education with an objective to cater to the Higher educational needs of those who wish to aspire for excellence in knowledge and values. The College has achieved greater academic distinctions with the introduction of Autonomous System from the academic year 1987-88. The college has been Re-Accredited by NAAC and it is ISO 9001 : 2015 Certified Institution. The total student strength is around 6000. Having celebrated its Diamond Jubilee in 2017, the college has blossomed into a premier Post-Graduate and Research Institution, offering 26 UG, 12 PG, 13 M.Phil and 10 Ph.D Programmes, apart from Diploma and Certificate Courses. The college has been ranked within Top 100 (72nd Rank) in India by NIRF 2021.

## THEME OF THE WORKSHOP

In August 2018, UGC issued a public notice followed by a direction to all central institutions, to form subject-specific committees for the implementation of the Learning Outcomes-based Curriculum Framework (LOCF). The idea behind LOCF is to decide the desired outcome within the framework of the current Choice Based Credit System (CBCS) for undergraduate and postgraduate programmes, and then design the curriculum to obtain these outcomes. The outcomes will be determined in terms of skills, knowledge, understanding, employability, graduate attributes, attitudes, values, etc., gained by students upon the completion of the course.

## OBJECTIVES OF THE WORKSHOP

The overall objectives of the learning outcomes-based curriculum framework are:

- To formulate graduate attributes, qualification descriptors, programme learning outcomes and course learning outcomes.
- To enable prospective students, parents, employers and others to understand the nature and level of learning outcomes (knowledge, skills, attitudes and values) or attributes a graduate of a programme should be capable of demonstrating on successful completion of the programme of study.
- To maintain National standards and international comparability of learning outcomes and academic standards to ensure global competitiveness, and to facilitate student/graduate mobility.
- To provide higher education institutions an important point of reference for designing teaching-learning strategies, assessing student learning levels, and periodic review of programmes and academic standards.
